CPSPulse™

TRANSFORM YOUR CLASSROOM
INTO A HIGH-PERFORMING INTERACTIVE LEARNING ENVIRONMENT.

Affordable, effective, and easy to use, **CPS**Pulse™ is the latest version of the market-leading Classroom Performance System™, used by millions of students and teachers in more than 500,000 classrooms. Keep students engaged, involved in class, and facilitate **greater student-teacher interaction** in a fun, dynamic learning environment that encourages class discussion and participation. Students who normally remain silent in class now answer every question with confidence.

• Capture real-time assessment data to gauge student comprehension as you teach.

• Identify individual learning needs and differentiate instruction as needed.

• Automate and streamline time-consuming administrative tasks like taking attendance, grading quizzes or tests, and recording the results.

• Generate personalized reports in seconds.

• Ideal for secondary school, in any size classroom.

RECOMMENDED: When any of eInstruction's student response systems are used with the **INTERWRITE**MOBI™, students' answers are displayed in the Mobi's unique KWIK or "Know-What-I-Know" LCD screen, allowing teachers to immediately see who "gets it,"and who does not, so they can modify their instruction accordingly.

CPSPulse™

KEY FEATURES

- 3-line LCD screen gives students real-time feedback and makes navigating self-paced assessments easy.

- Question/Answer Types: Multiple Choice, Multiple Answer, Yes/No, True/False, Ranking, and advanced Numeric and Text Entry capabilities for greater flexibility in test writing and delivery, including the types frequently used in **math and science**.

- Language functionality - supports 14 languages and will allow for multiple language clickers in a single session.

- Seamless integration with **EXAM**VIEW® publishers content and question banks that come with all major textbooks makes lessons and assessments easy to create and deliver.

- Support for homework mode (only in **INTERWRITE**RESPONSE®) with Jump/Search question navigation. Up to four different assignments of 99 questions each can be stored, answered in an "offline" mode, and then transmitted upon re-connection.

- Support for multiple **CPS**Pulse™ RF receivers to increase the performance level of **CPS™** and **INTERWRITE**RESPONSE® in large classes.

- Operates in teacher-managed or student-managed modes.

- State-of-the-art Radio Frequency protocol provides easy and reliable plug-and-play connectivity.

SPECIFICATIONS

- Runs on 2 AA batteries with a typical life of 9 to 12 months.

- Operating distance: 50 meters (150 feet). Does not require line of sight between clickers and receiver.

- Available for Windows® XP (SP2) and Vista® (SP1); Mac OS® X 10.4.1 or higher, and Linux® operating systems.

Technology	RF (2.4 GHz)
Maximum Number of Clickers Per Receiver	1,000
